

LubInsight Iron Magnetic

Experience effortless maintenance with our onboard analysis kit, designed to precisely measure iron magnetic content in used oil, ensuring your equipment runs smoothly and lasts longer.

APPLICATIONS	
✓	A rapid onboard test kit to indicate the amount of iron content in used oil: drain oil, engine oil, hydraulic oil.
✓	This kit contains all the necessary equipment needed for 80 tests.

FEATURES	
✓	Provides immediate and accurate readings of iron magnetic content in used oil.
✓	Measuring range: 0 to 5 500 ppm Fe.
✓	Possibility to export data from USB connection.

CUSTOMER BENEFITS	
✓	Simple to use, ensuring hassle-free operation for all users. Seamlessly fits into your existing maintenance routine.
✓	No need for chemical reactions or consumables, making it safe and eco-friendly.
✓	Helps prevent equipment failure and extends machinery life.
